Acta Psychologica 70 (1989) 305–306
North-Holland

CONTENTS OF VOLUME 70

Bachmann, T., Microgenesis as traced by the transient paired-forms paradigm 3
Barrett, A.N.C. and D.J. Glencross, Response amendments during manual aiming movements to double-step targets 205
Berlucchi, G., *see* G. Tassinari 267
Biscaldi, M., *see* G. Tassinari 267
Coles, M.G.H., *see* E.J. Sirevaag 77
Donchin, E., *see* E.J. Sirevaag 77
Eckert, C., *see* K. Fiedler 109
Eling, P., *Review of* L.K. Obler and D. Fein (eds.), The Exceptional Brain: Neuropsychology of Talent and Special Abilities 99
Eling, P., *Review of* Vsevolod L. Bianki, The Right and Left Hemispheres of the Animal Brain: Cerebral Lateralization of Function 100
Engelkamp, J., *see* H.D. Zimmer 293
Fiedler, K., C. Eckert and C. Poysiak, Asymmetry in human discrimination learning: Feature positive effect or focus of hypothesis effect? 109
Glencross, D.J., *see* A.N.C. Barrett 205
Hogarth, R.M., Transgressive action and inaction: The need to study both (A commentary on J. Kozielecki) 65
Jelsma, O. and J.M. Pieters, Instructional strategy effects on the retention and transfer of procedures of different difficulty level 219
Klein, R. and P. McCormick, Overt visual orienting: Hemifield-activation can be mimicked by zoom lens and midlocation placement strategies 235
Kornbrot, D.E., Organisation of keying skills: The effect of motor complexity and number of units 19
Kozielecki, J., Towards a theory of transgressive decision making: Reaching beyond everyday life 43
Kramer, A.F., *see* E.J. Sirevaag 77
Marzi, C.A., *see* G. Tassinari 267
Matthews, G., Extraversion and levels of control of sustained attention 129
McCormick, P., *see* R. Klein 235
Merckelbach, H. and P. van Oppen, Effects of gaze manipulation on subjective evaluation of neutral and phobia-relevant stimuli: A comment on Drake (1987) 147
